SUMMARY

React.js Developer with an MCA (CGPA: 7.78/10) and hands-on experience building multi-portal, component-based web applications using React.js, JavaScript (ES6+) and REST APIs. Comfortable across the stack with Java and Spring Boot for backend integration and MySQL for data persistence. Shipped 2 independent frontend projects plus a Power BI data dashboard, and completed 5 structured internships spanning full-stack, web, Java, and data science development.

EDUCATION

- **Uttaranchal University, Dehradun** – Master of Computer Applications (MCA), CGPA: 7.78/10 *Aug 2024 – Jun 2026*
- **Deen Dayal Upadhyaya Gorakhpur University** – Bachelor of Science (B.Sc.) *Aug 2019 – Dec 2023*

PROJECTS

• E-Commerce Website

React.js, Vite, JavaScript, REST APIs, CSS

- **Role-Based Portals:** Built a React.js frontend (Vite tooling) with three distinct portals — Admin, Customer, and Dealer — using React Router to manage navigation and role-based access between them.
- **Auth & API Integration:** Implemented user authentication and used the Fetch API to connect the React frontend to REST APIs for product, order, and user data across all three portals.

• Car Rental Web Application

React.js, HTML, CSS, JavaScript, Bootstrap

- **Reusable Components:** Built a React.js frontend with React Router for multi-page navigation, reusable UI components, and client-side form validation for the booking flow.
- **REST API Integration:** Used the Fetch API to connect booking and authentication flows to REST APIs; optimized the layout across mobile and desktop breakpoints.

• Netflix Sales & Content Dashboard

Power BI, Data Analysis

- **Regional Insights:** Built an interactive Power BI dashboard analyzing Netflix movie sales across different regions.
- **Content Trends:** Visualized the type of content viewed in each region to surface regional viewing patterns.

EXPERIENCE

• Codeware IT Pvt. Ltd.

Full Stack Developer Intern

Feb 2026 – Apr 2026

Dehradun

- **E-Commerce Build:** Built a full-stack e-commerce application in React.js and Spring Boot, implementing an Admin Panel and REST APIs for frontend-backend data exchange.

• HitBullseye

Software Development Intern – Java & DSA

Jun 2025 – Jul 2025

Dehradun

- **DSA Training:** Completed a 45-day Java & DSA program covering arrays, linked lists, trees and graphs through daily proctored coding assessments.

• CodeAlpha

Virtual Intern – Web Development, Java & Data Science

Aug 2025 – Dec 2025

Remote

- **Multi-Track Internship:** Completed three virtual internship tracks applying JavaScript, HTML and CSS for web development, Java for OOP-based programming tasks, and foundational data analysis techniques.

• Project Engineer (Academic Role)

Jan 2024 – Dec 2025

- **Frontend Leadership:** Led frontend development for 3+ academic projects using React.js, HTML, CSS and JavaScript, coordinating with backend teammates to integrate REST APIs end-to-end.

TECHNICAL SKILLS

- **Languages:** Java, C, JavaScript (ES6+), HTML5, CSS3
- **Frontend:** React.js (Hooks, Components, Props, State), React Router, Fetch API, Vite, Bootstrap, Responsive / Mobile-First Design
- **Backend & APIs:** Spring Boot, REST API Integration
- **Databases:** MySQL
- **Tools & Cloud:** Git, GitHub, VS Code, Postman, Power BI
- **Concepts:** OOP, Full Stack Development, Client-Side Validation, Component-Based Architecture, Agile

CERTIFICATIONS

- **Full Stack Internship Certificate** – Codeware IT *Feb 2026 – Apr 2026*
- **Java Full Stack (Advance Language Developer Certificate)** – Education World, Grade A+ *Jan 2024 – Jun 2024*
- **Web Designing (Advanced Web Design Diploma)** – Education World, Grade A+ *Oct 2023 – Dec 2023*
- **Solutions Architecture Job Simulation** – AWS / Forage *Aug 2025*
